**\*Test Rx to Assess Out-of-Pocket Costs:**  
 Rivaroxaban or Apixaban  
 LMWH → Dabigatran or Edoxaban  
 LMWH → Warfarin

**<sup>†</sup>Treatment Considerations:**  
 1. Use LMWH if patient has active cancer  
 2. Patients with severe renal dysfunction (CrCl<30ml/min) or mechanical valves should be treated with adjusted dose LMWH → warfarin
